

ArcGIS Tools for Professional Cartography

By

Makram Murad-al-shaikh

M.S. Cartography

Senior instructor – ESRI Educational Services

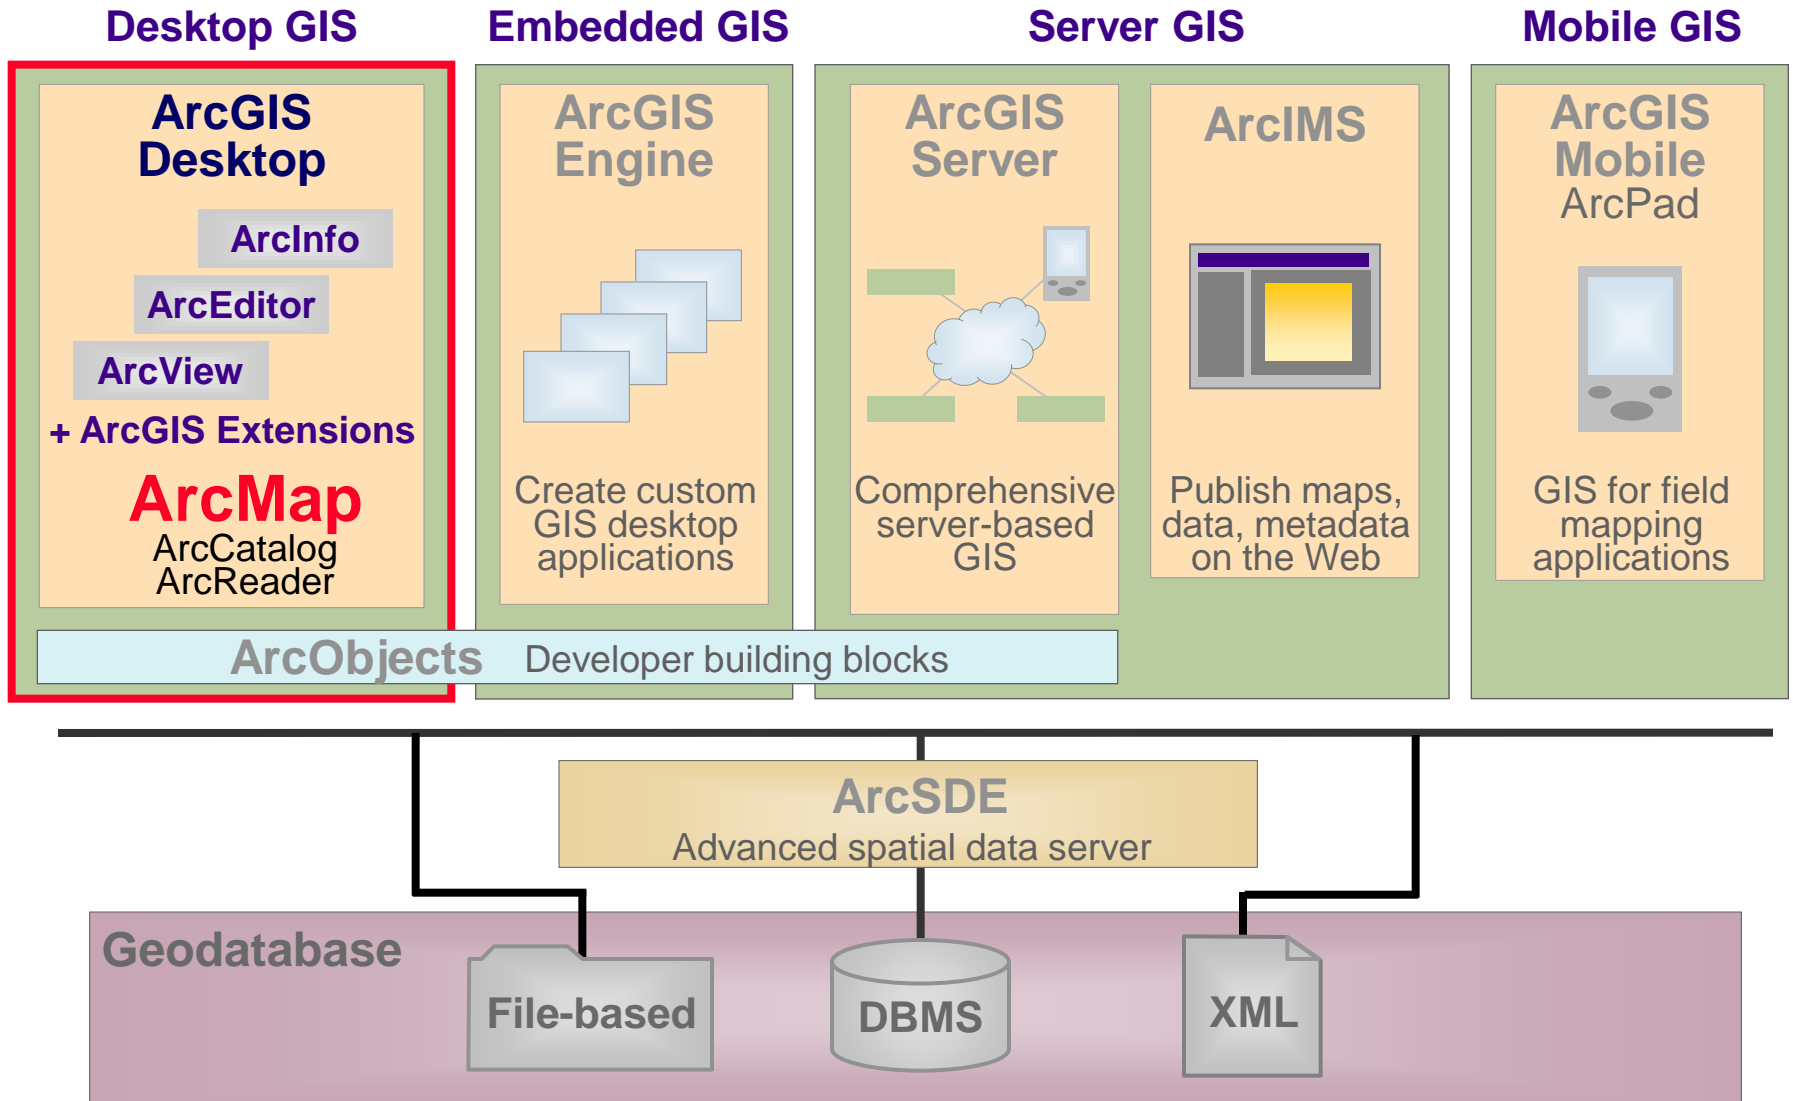

ICC - A Coruña - Spain, 9-16 July, 2005

Overview

- ◆ **Overview of the ArcGIS software**
- ◆ **ArcGIS 9.1 and ArcMap for cartography**
 - ◆ **Explicit cartography tools**
 - ◆ **Symbol Levels**
 - ◆ **Graphic clipping of GIS layers**
 - ◆ **ArcToolbox geoprocessing tools**
 - ◆ **Variable-depth masking – contour annotation**
 - ◆ **Multiple-ring buffers – enhancing figure-ground / aesthetics**
 - ◆ **Cartographic generalization tools**
 - ◆ **Spatial Analyst extension**
 - ◆ **3D Visualization using Map Algebra**
 - ◆ **Annotation and Maplex for labeling and name placement**

ArcGIS overview

Symbol Levels

Redlands roads

- Arterial_Collector
- Interstate
- OnOffRamps
- LocalStreets
- MajorHWY
- MinorHWY

TOC

Symbol layers

Symbol	Layer Name	Label	Join	Merge
	Interstate		<input checked="" type="checkbox"/>	
	OnOffRamps		<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
	MinorHWY		<input checked="" type="checkbox"/>	<input type="checkbox"/>
	Arterial_Collector		<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
	MajorHWY		<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
	LocalStreets		<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

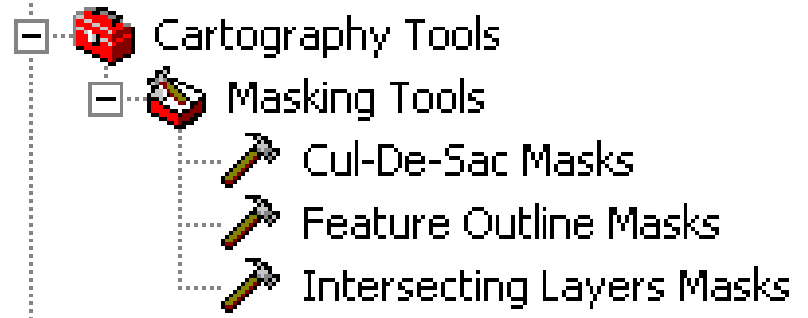

Portion of Symbol Levels dialog

Result of using Symbol Levels

Variable-depth masking

- ◆ Create masking polygons at intersections of symbolized layers
 - ◆ Inputs can be **Point** **Line** **Polygon** feature layers, and **GDB Annotation** layer
 - ◆ Can specify mask shape and size
- ◆ Only available with ArcInfo license
- ◆ **Geoprocessing Masking Tools**

Cul-De-Sac Masks

Smooth using rounded end caps

Cul-De-Sac Masks

Input Layer
Transportation 4

Output Feature Class
D:\Temp\BritRoad_CDSmasks.shp

Reference Scale
1250000

Calculation coordinate system
British_National_Grid

Margin
2 Points

Transfer Attributes (optional)
ONLY_FID

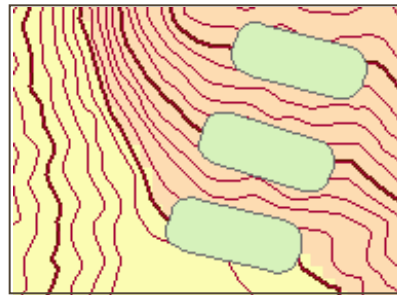

Feature Outline Masks

◆ Masking for annotation

◆ Masks will not show

**Annotation
on contours**

**Masks
(green)**

**Masked
contours**

Intersecting Layers Masks

**Overlapping symbols
(ROAD and BOUNDARY)**

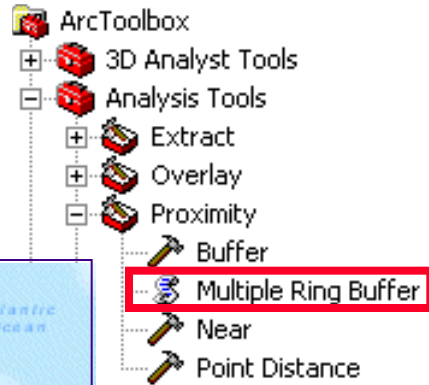

**Mask is created
(will not show later)**

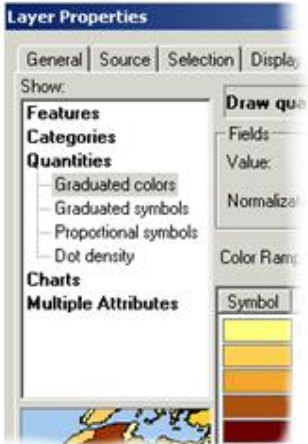

**BOUNDARY layer
is masked
under the ROAD layer**

Adding a gradual color ramp at coastlines

Enhancing land-water interface

Use a blue color ramp

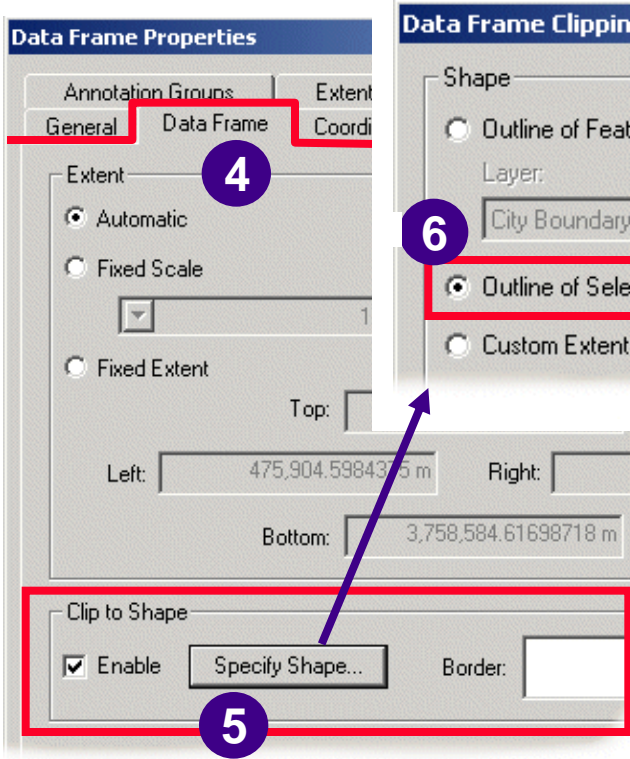

Clipping a data frame to a selected graphic

1 Draw graphic

2 Selected circle

3 Right-click data frame

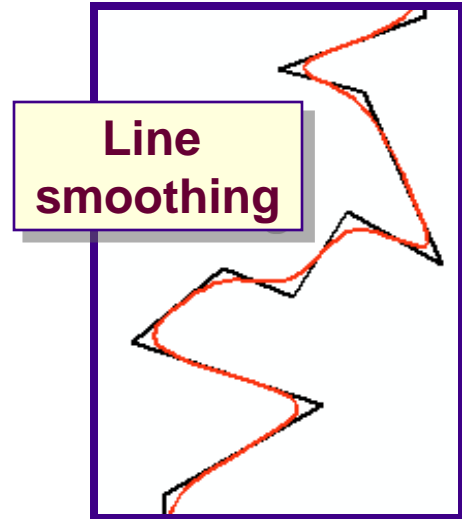

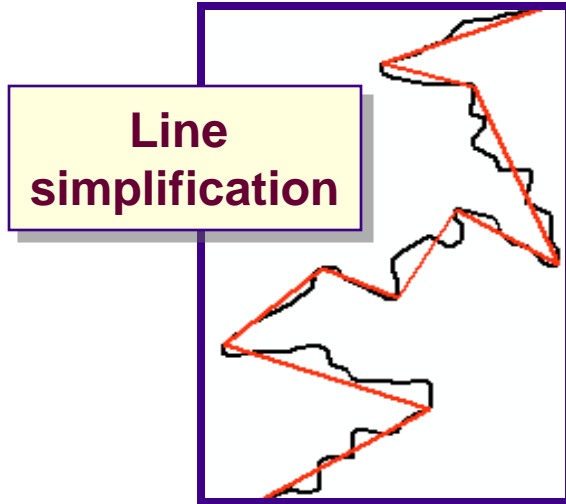

5

6

Clipping other shapes

Examples of vector data generalization

Rendering relief with core ArcGIS

◆ Drawing tree symbols on a hillshade

**Adding trees
using special
random markers**

Rendering relief: Using ArcGIS Spatial Analyst

- ➊ Multidirectional, oblique-weighted shaded relief
- ➋ Swiss style hillshading technique
- ➌ Using landscape patterns to texturize painted relief

Special shading

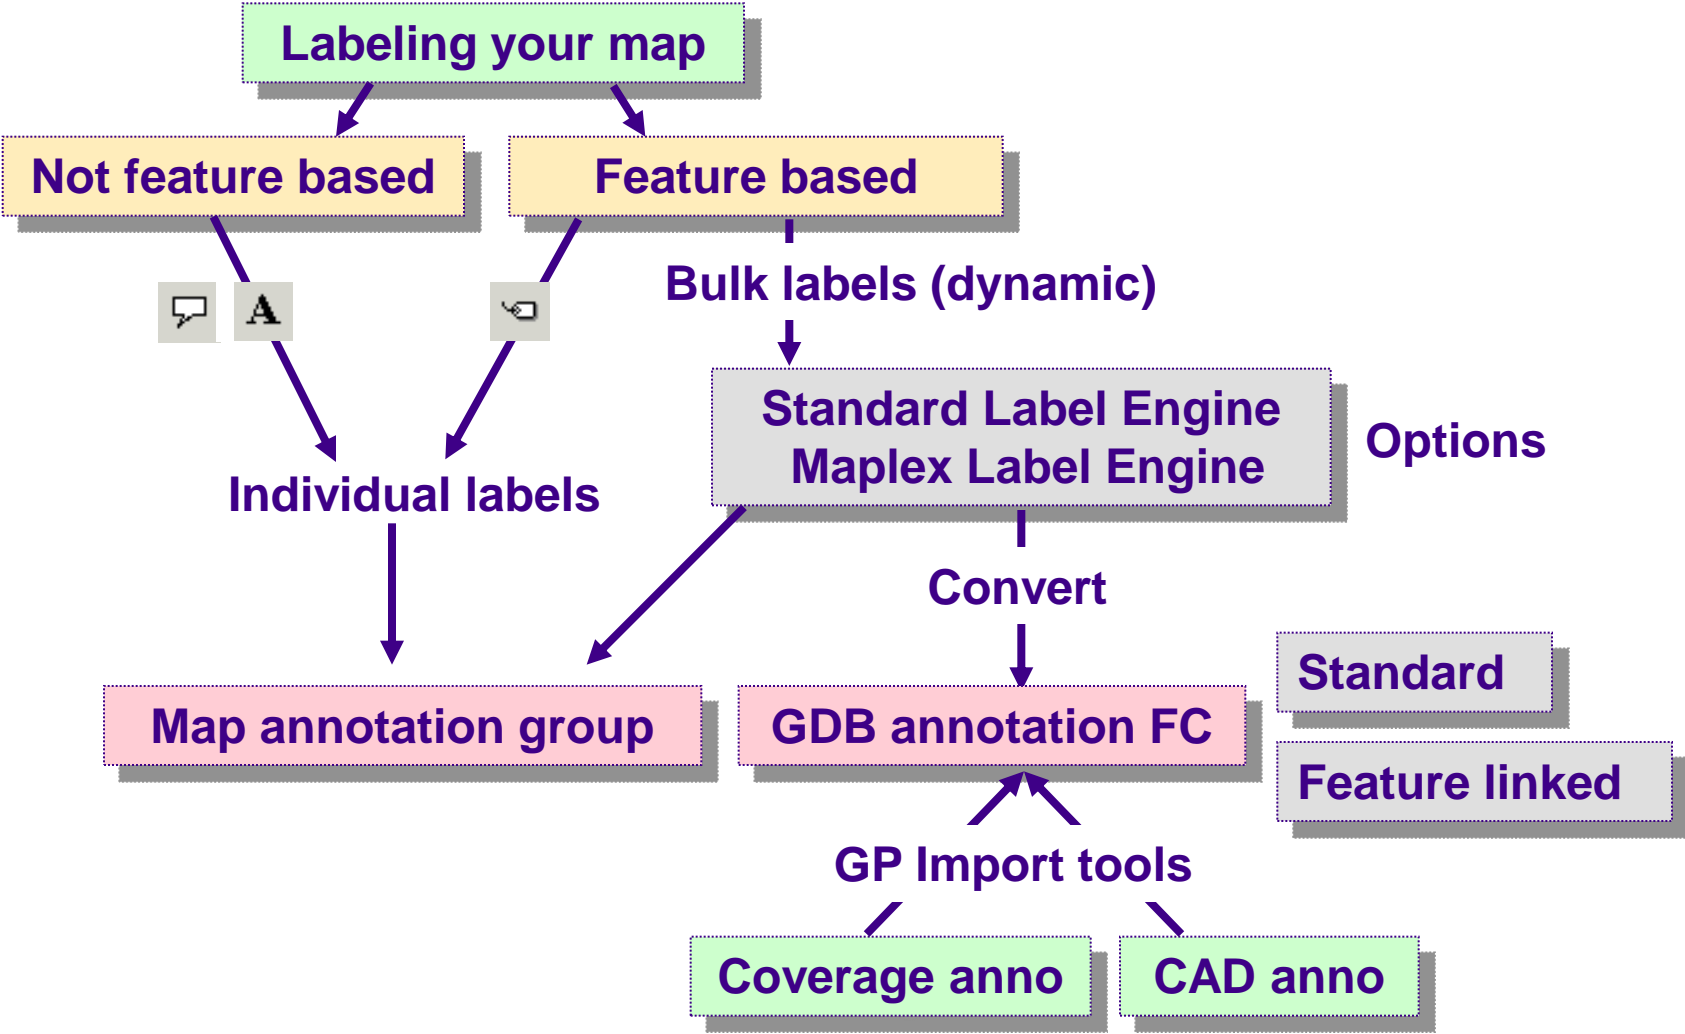

Swiss hillshading

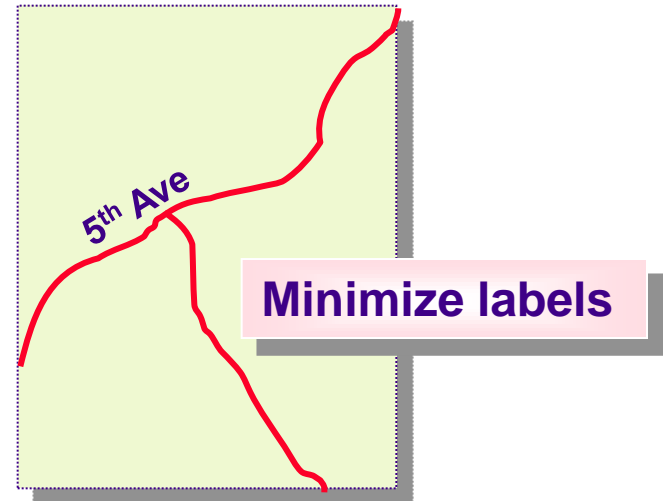

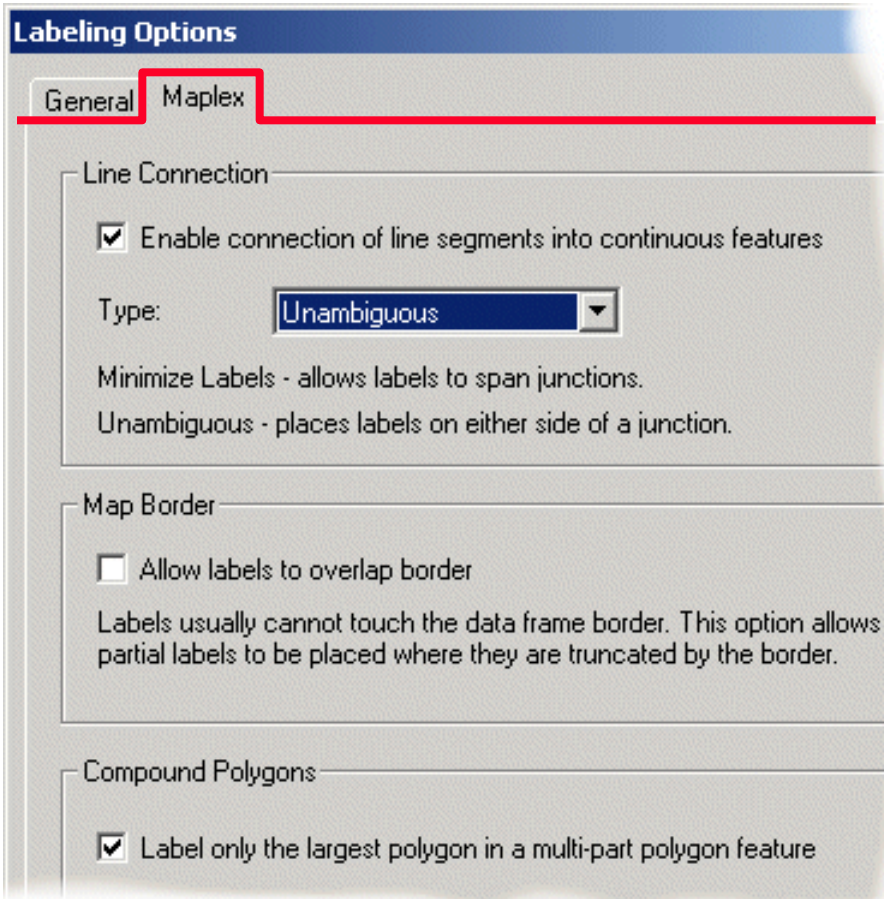

Adding texture

The labeling road map

Labeling with the Maplex Label Engine

More information

- ◆ Take a 3-day cartography course from ESRI
 - ◆ Murad-al-shaikh, Makram, 2004, *Cartography with ArcGIS* course manuals, ESRI, Inc. Course version 1.2, revised October.
 - ◆ <http://www.esri.com/training/index.html>
- ◆ Take an ESRI Virtual Campus course
 - ◆ *Cartographic Design Using ArcGIS 9*
 - ◆ <http://campus.esri.com>
- ◆ Attend a related poster session at the ICC conference
 - ◆ Murad-al-shaikh, Makram, 2005, *Professional Labeling and Text Annotation Techniques with ArcMap*
