Errata: GIS Tutorial 3

Version	Location	Finding	Correction	Submitted
Print	Page 249 Step 6 1st bullet	Text reads: outFeatureClass = 'PoliceGrid' not matching illustration which has a space between Police and Grid.	You can replace with: outFeatureClass = 'Police Grid' but this will be replaced in Step 7, so it doesn't make a lasting difference. Correction will be made in future updates.	5/7/14
