## Making Spatial Decisions Using GIS: A Workbook

**Exercise Errata** 

**Demographic Decisions, Project 1, Step 7, page 47:** The American FactFInder previously found at <a href="http://factfinder.census.gov">http://factFinder.census.gov</a> has migrated to the new American FactFinder at <a href="http://factfinder2.census.gov">http://factfinder.census.gov</a> has been discontinued.

The file that was to be downloaded is still available in your data folder. The file name is **dt\_dec\_2000\_sf4\_u\_data001\_1**.

**Demographic Decisions, Project 2, Q14, page 58:** The Microsoft Excel worksheet containing the median house value attributes is located in your data folder. The file is named **dt\_dec\_2000\_sf3\_u\_data1**.

Student Resources DVD, Houston\_results geodatabase: The Houston\_results geodatabase is present, but is corrupt and can't be accessed. However, it's an empty geodatabase to start with. As an alternative, create a new empty geodatabase: Right-click on the Houston\_results folder, and select new file geodatabase. Name it results and continue with the exercise.
