Downloading the Required Software

- 1. Previous versions of ArcGIS Desktop must be uninstalled before this program can be installed. Go to Add/Remove programs to uninstall these programs before installing ArcGIS Desktop 10.
- Click the 7-Zip link to download and install the 7-Zip ISO extracting tool. Choose to download 32 bit or 64 bit depending on the Windows operating system you are running. Once downloaded, click the .exe or .msi file to install. Below is a screen shot of the 7-Zip download site.

- Click Microsoft .Net Framework 3.5 SP1 to install a .Net Framework version detector. This will show you all the .Net Framework versions you have installed on your computer. If 3.5 SP1 is not installed, go to the Asoft website at <u>http://www.asoft.be/prod_netver.html</u>.
- Download ArcGIS Desktop 10 (English) 3.76 GB. The disk that you have in the back of your book is the tutorial data. (This is a large download and can take anywhere from 45 minutes to 10 hours to download depending on your download speed.)

Note: If you use the standard download manager, it will not give you a selection of where to save your file. Make a note of where it is downloading this file because you will need to browse to that location when using the 7-Zip program.

Unzipping ArcGIS Desktop 10 ISO with 7-Zip

1. From the Start menu, click Programs > 7-zip > 7-Zip File Manager.

2. In the 7-Zip File Manager window (see screen shot below), browse to find the ArcGIS Desktop ISO file. (We recommend downloading the ISO file to your Documents folder.)

3. Select ArcGIS_Desktop10_122519.iso then click the Extract button (see screen shot below). The Extract window will open with the Extract to field populated. Click OK to start the extraction.

Files will be extracted into a folder under the same location where your ISO file was downloaded, or you can choose another destination folder. The extraction process will take about 5 minutes.

Installing ArcGIS Desktop 10

1. When the extraction is complete, close 7-Zip and go to the location where the ISO file was extracted. In the screen shot below, the extracted file is in a new folder that was created from 7-Zip. Double-click that folder.
