

Military Overlay Editor to ArcGIS (MOLE) Product Life Cycle Support Status

The Product Life Cycle Support Policy is designed to help communicate to ESRI users the technical support resources available during a product's life span and to provide advanced notification of planned changes to available support options. Read more about this in our [Product Life Cycle Support Policy](#).

Notes:

- The ArcGIS Desktop extensions carry the same Product Life Cycle as the main ArcGIS Desktop product.
- All service packs, patches, and hot fixes available for a particular version have the same support status as the version they address.
- Dates listed in a support column provide the date on which the product entered that support level.

Version	Release Date	General Availability	Extended Support	Mature Support	Retired	Notes
9.3.1	Sept 2009	X				
9.3	July 2008	X
