

ArcGIS Address Coder (formerly Community Coder) Product Life Cycle Support Status

The Product Life Cycle Support Policy is designed to help communicate to ESRI users the technical support resources available during a product's life span and to provide advanced notification of planned changes to available support options. Read more about this in our [Product Life Cycle Support Policy](#).

Notes:

- Product name changed from Community Coder to ArcGIS Address Coder in 2009 at the version 9.3 release.
- Because of the nature of the data content, we do not support older versions. Each version contains the updated demographic, tapestry, and geocoding source data.
- Also, prior to 2008, this product's licenses timed out. When the license times out, the product reverts back to demonstration mode.

Version	Release Date	General Availability	Extended Support	Mature Support	Retired	Notes
Address Coder 9.3.1 (2009 Data)	Jul-09	x				Next release will be version 10
Address Coder 9.3 (2008 Data)	Feb-09			x
