

GIS Portal Toolkit Product Life Cycle Support Status

The Product Life Cycle Support Policy helps communicate to ESRI users the technical support resources available during a product's life span and to provide advanced notification of planned changes to available support options. Read more about this in our [Product Life Cycle Support Policy](#). Notes:

- Version 9.3 is the last release of GPT. It is now an extension to ArcGIS Server. The ArcGIS Server Geoportal Extension 9.3.1 (released July 2009) carries the same Product Life Cycle as ArcGIS Server, but is on a different release schedule. See the [ArcGIS Server Product Life Cycle](#) for details.
- Although the Portal Extensions for ArcGIS Desktop and ArcGIS Explorer are officially a component of the GPT, they are a free download and do not require a GPT license. Because of this, they may have their own release schedule and do not necessarily follow the Product Life Cycle of the GPT.
- All service packs, patches, and hot fixes available for a particular version have the same support status as the version they address.
- Dates listed in a support column provide the date on which the product entered that support level.

Version	Release Date	General Availability	Extended Support	Mature Support	Retired	Notes
9.3	Aug 2008			X December 2009		Version 9.3 will be moved to 'Retired' status on the date ArcGIS Server Geoportal extension 10 is released.
3.1	Dec 2006				X December 2009	This is a retired version.
3.0	Jun 2006				X	This is a retired version.
2.x	May 2005				X	This is a retired version.
1.x	April 2004				X	This is a retired version.
